## Sylvester O'Halloran Perioperative Symposium

# “HANDS ON” Introduction to Robotic Surgery Course for beginners

This course will be run in conjunction with (MIS)—Video Session and Robotic Surgery Lecture by Mr Subhasis Giri. Training will be on the Dual Console DaVinci Xi platform. All participants will get simulator time and hands on with robotic platform components, with basic information regarding settings, features, patient positing, port positing, docking, endowrist manipulation, camera navigation, instrument clutching, energy application, needle driving, troubleshooting measures, and emergency procedures.

CERC building,  
University Hospital Limerick
